

Customized Skin and Laser Care

We use various P.A. grade products, chemical peels, and a light therapy laser to correct aging skin and target problem areas.

Permanent Hair Removal

The Permanent Hair Removal System eliminates having to worry about hair removal ever again. A flash of light over the treatment area targets the melanin in the hair shaft. Once the hair follicle is disabled, it will never produce hair again. Most people need between four and eight treatments for optimal hair removal, with each treatment lasting between two and 50 minutes.

Photo Facial

Gentle lasers correct pigmentation irregularities and encourage new collagen growth to smooth out existing facial wrinkles. It effectively treats sun damage and aging on the face, facial redness, flushing, and pigmentation problems on the face, neck, and cheek, and skin laxity.

Laser Acne Treatment

Not ready for Accutane? Antibiotics not working? Sometimes in addition to good peels, a laser acne package can help with bacteria on our skin. Using heat, radio frequency, and intense pulsed light, we can change the environment of our skin. We recommend a series of weekly peels to be used in addition to good skin care for our particularly difficult acne cases.

Microdermabrasion

Transform your skin with this highly progressive, non-aggressive facial treatment. Microdermabrasion is the safe alternative to acid peels and laser. The safe skin resurfacing treatment reduces fine lines, sun damage, irregular pigmentation, redness and acne scars, resulting in smoother, cleaner skin. Skin is substantially smoother, and you walk out with a glow that lasts for days.

Common treatment conditions include:

*Blackheads and Whiteheads — Fine Wrinkles
Sun Damage — Acne — Superficial Age Spots
Oily Skin — Reduction of Open Pores*

Facials

All facials in our salon include cleansing, skin analysis, exfoliation of dead cells, pure extraction, high frequency ultrasonic, iontoforesis, along with its appropriate mask and customized skin care for your individual needs. Leaves skin with a healthy, glowing complexion. .

Prestige Cleansing Facial

The perfect basic deep-cleansing facial for all skin types to help produce a healthy, glowing complexion.

European Facial

Help firm and tone your skin with special massaging techniques to increase circulation and flush out toxins. It is a moisturizing treatment and massage for the hands to complement this facial which is ideal to pamper skin to slow signs of aging.

De-Stress Facial

Exceptional treatments for tired, stressed skin combined with a relaxing face, neck, and shoulder massage will have you ready to face the world again. Hands and feet receive special attention for added benefits.

Enzyme Treatment

The perfect products on this treatment are applied to help re-program the skin. It assigns more nutrients to the skin cells to help achieve dramatically noticeable results. Wrinkles, particularly around the mouth and eyes, are diminished. The complexion glows with the cleaner, healthier radiance of more youthful skin.

Glycolic Peel

Highly concentrated glycolic acids aid in accelerating the removal of dry surface skin as it deep cleanses and unclogs pores. Sun damaged, finely lined, and acne-prone skin benefit greatly from this treatment. A two-week regimen of home maintenance glycolic acid is required to prepare the skin prior to the treatment.

Romerg Peel

Ideal for sensitive/dehydrated skin but suitable for any skin type or condition. Commonly used for aging/asphyxiated skin (dry surface and oily underneath). Moderate to pronounced exfoliation results.

Eye Treatment

This facial for eyes diminishes fine lines, puffiness, dryness, and dark circles while relieving tired eyes. Soothe the delicate eye area with this cooling, revitalizing treatment of lymphatic and pressure point massage techniques, coupled with a state-of-the-art plant-based formula.

Acne Peel

Great lightening and brightening effects for your skin! These peels are always done in a series of six (6) (once weekly for six weeks). This ensures control over the skin's bacteria that causes active cystic acne and the changes that occur during the course of the treatment. Ideal for super-sensitive and menopausal skin as it causes only light exfoliation (depends upon the skin's condition at the time of treatment).

Pumpkin Peel

Great for frequent air travelers, smokers, and those who work in low-oxygen environments. Promotes healing by increasing oxygen intake in the skin. This brightening peel contains high Vitamin C content (anti-oxidant) and has an aromatherapeutic "pumpkin pie" smell. Safe for pregnant and lactating women but always check with your OB/GYN.

Dermaplane

Treatment to boost the penetration and speed of the effects of any of our home care systems by removing the outer layer of dead skin cells and fine hair and can be combined with our other treatments for a more efficient response. Results are felt immediately!

Oxygen Peel

Use your own oxygen to correct oily/dry skin, sun damage, and pigmentation. This amazing peel improves the oxygen flow in the skin to stimulate a deep exfoliating system that removes dead skin during your treatment. You don't have to worry about peeling days later. Sluggish, tired, smoker's skin, medication, age, poor diet-related problems respond very well.

Body Spa Treatments

Back Revival

Recommended four times yearly, this treatment includes deep cleansing and exfoliation for the neglected back area. This service helps treat acne and reveals smoother skin. Great for that backless dress or swimsuit! Included is steaming, massage, and a treatment mask.

Body Scrubs

Body exfoliation is the key to soft, supple skin by gently removing dull surface skin cells and roughness. A heavenly approach to achieve softer, youthful skin.

Herbal Body Wrap

A fleece sheet is soaked in an infusion of herbs and wrapped around the body for 20 minutes, letting the herbs draw out impurities. A body moisturizer is applied, leaving skin soft and revitalized.

Paraffin Body Treatment

Warm, soothing paraffin and essential oils moisturize the skin and promote relaxation. Improves dry skin and is calming for arthritic pain. Results in lymphatic and circulatory stimulation, assisting the body in draining fats and toxins.

Parafango Wrap

This treatment begins with an invigorating exfoliation, followed by an application of AHA Amino Serum. Next, a thick layer of warm Parafango is brushed on. You are wrapped in a heated blanket for 15 minutes. After removing the Parafango, a thermo-active cream is massaged into the skin. Can be customized to treat cellulite and promote the loss of inches.
